HOBBIES & PERSONALITY

You can learn many things about a man through his hobbies, let's share the ones I simply cannot part with:

A true geek at heart, I grew up surrounded by computers and electronic gadgets, and this has, quite naturally, shaped the adult I have become...

I am an avid reader, though a bit less so of books since the rise of the Web; I can spend hours reading scientific articles on all sorts of topics, as long as I am learning something new or useful.

Automobiles, noble mechanics, the sound of engines... It is one of my favorite passions, if not my very favorite.

And finally, a passion passed on to me by my late father, «Cigars»! Every cigar tells a story, and the greatest ones have extraordinary tales evoking a sense of freedom, revolution, and charisma! With a Cohiba Behike between your lips, you instantly see yourself as “Fidel Castro” or “El Ché”!
